

COSUMNES RIVER PRESERVE

S W A L L O W B O X M O N I T O R I N G

Volunteers needed!

***Join our Swallow Box Monitoring Team
March - July 2020***

What is the purpose?

The purpose of this survey is to determine the annual Survivorship rate of fledging tree swallows.

How will volunteers help?

There are various routes of Tree Swallow boxes throughout the Preserve, about 40 boxes per route. Teams of 4 volunteers will be assigned to each route, 2 monitoring at a time. The boxes will be monitored twice a week, with teams deciding amongst themselves which days they prefer to monitor.

Interested?

Email J1Davis@blm.gov if interested and if you would like to be put on the email list for future news, trainings, and anything swallow box related.

Future trainings

-Trainings will occur on March 16th, 2020

-Please RSVP with the email listed above.
